PROFESSIONAL SUMMARY

I am a highly driven and accomplished student who recently earned my bachelor's degree in computer science. I am a goal-oriented Web Engineer with a strong dedication to teamwork and problem-solving solutions. I'm looking for an interesting new job where I can put my skills to use in a dynamic and inventive firm.

PROFESSIONAL EXPERIENCE

City Government of Addis Ababa Education Bureau

Addis Ababa, Ethiopia

Software Engineer Intern

2021-6 - 2021-10

- Collaborated with senior engineers on a web application that assists in determining whether there is an open internship position and registering them if there is.
- Made recommendations for the use of new technologies, specifically the usage of React, which made the application faster and simpler to manage.
- Brainstormed an application functionality that was ultimately incorporated in the final product.
- Worked with a developer team and Senior Software Engineers to build customized software products accessible by students.

EDUCATION

St. Mary's University

Addis Ababa, Ethiopia

Computer Science

2018-09 - 2022-07

PROJECTS

Maternity Healthcare Management System(Senior Project)

Lead developer, used : HTML, CSS, PHP and JavaScript.

- Designing and implementing a management system for a maternity healthcare branch that took over 20 weeks on a three-person team.
- Was able to assess the problem with the paper-based system, create a completely functional system in accordance, and receive user feedback on the program's usability assessment.

Country-Flag React application using : React , MaterialUI, Axios.

- Link : <https://countryflag.onrender.com/>
- Built a web application to teach people about countries and continents, as well as to teach them about the history of uncolonized countries and to show them nearby countries.

Clothing website using : React, Redux, Firebase, Axios And MaterialUI.

- Github Link : <https://github.com/Amminadab/crwn-clothing>
- Build a real world clothing app called crwn-clothing that sells hats, jackets, hoodies and shoes online. Functionality of the cart is made using Redux state management, as well as Firebase login and authentication.

SKILLS

- **Front-end** : JavaScript, React, Redux, Bootstrap, MUI, Tailwind CSS, HTML and CSS.
- **Back-end**: PHP, NodeJS, Python, Firebase and Axios.
